The number of bookings per month exceeded 115,000 in 1991. That number has been dropping for over a decade. For the 4th Quarter of 2001, the average number of bookings per month was 95,086. This decline in bookings is likely one cause for the reduced ADP; however, in the period since 1998 when the ADP declined 8.2%, the bookings per month declined only 3.8%.
